

Voting for prizes at ICPH2009

Deadline for voting: 2.30 pm Wednesday 9th December

Please put your completed voting paper in the ballot box at Exhibition Stand 9

Please vote by putting an "x" next to the name you want to vote for.

Vote for ONE NAME IN EACH CATEGORY

(1) Novel findings emanating from dietary intervention studies in humans;

Christian Heiss
Kevin Croft

(2) Novel findings emanating from investigations aimed at elucidating the absorption, metabolism and tissue distribution of dietary flavonoids;

Junji Terao
Peter Hollman

(3) Novel findings emanating from studies aimed at understating the mechanisms that underlie the bioactivity of flavonoids, or that help to identify specific molecular targets or mechanism of action:

Jeremy Spencer
CS Yang

(4) Novel procedures aimed at improving analyses of flavonoids in plants, food sources, and especially biological samples;

Veronique Cheynier
Alan Crozier

(5) Novel insight in the effects of agricultural practices, food processing and food preparation on the flavonoid content of foods and beverages.

Mike Clifford
Francesco Tomas-Barberan

(6) Novel findings from studies on polyphenols from fruit or vegetables.

Paul Kroon
Jim Joseph

And now vote for ONE person selected from above for the "AWARD FOR OUTSTANDING FLAVONOID RESEARCH" by writing their name in the box below:
